KAREL BEATS SCHMITZ FOR NOMINATION

Democratic Choice for Governor Is Judge of Milwaukee Court

WINS BY SMALL MAJORITY

Winner Will Lead in the Final Count by a Very Small Margin

DEMOCRATIC VOTE IS LARGE

Interest in Fight for Gubernatorial Nomination Brings Out Many Voters

MILWAUKEE, Wis., Sept. 4.—Although final figures will not be complete for several days, it was certain today that Judge John C. Karel had defeated A. J. Schmitz in the primaries for the democratic nomination for governor. In Milwaukee county alone it was estimated today that his majority would be 6,000. Governor Francis E McGovern, republican nominee, had no opposition. Carl D. Thompson, socialist, and Charles L. Hill, prohibitionist, were nominated without opposition.

Vote Large

The interesting fight between Karel and Schmitz brought out an enormous democratic vote. The republican votes fell far short of expectations of the leaders of that side. The socialist candidates polled a goodly vote, considering there was no fight between any of the candidates, and the prohibitionists attracted fewer votes for their candidates than in several years.

Congressman William J. Cary ran ahead on the democratic ticket for congress in the fourth district, Milwaukee, and former Congressman W. H. Stafford, in the Fifth district, this county, ran ahead of his opponents.

Indications today were that the following would be on the state tickets:

Lieutenant governor, democratic, Harry Bolens; republican, Thomas Morris; socialist, Henry M. Parks; prohibitionist, Joseph V. Collins.

Secretary of state, democratic, Andrew P. Kealy; republican, John S. Donald; socialist, Rae Weaver; prohibition, Herbert J. Noyes.

State treasurer, democratic, Nicholas Schmidt; republican, Henry Krumrey; socialist, Henry. J. Ammann; prohibition, Thomas Edwards.

Attorney general, democratic, J. F. Doherty; republican, Walter C. Owen; socialist, Lynn D. Joseph; prohibition, Herbert S. Sigelko.

CANDIDATE NOT DISCUSSED

COLUMBUS, O., Sept. 4.—A singular absence of wire pulling marked the gathering here today of delegates to the state convention of the progressive party. Delegates talked more of platform than of candidates. The convention will open at four o'clock this afternoon.

WEATHER

For La Crosse and vicinity—Unsettled weather with probably showers tonight or Thursday; no decided change in tempature.

For Wisconsin—Showers tonight or Thursday; warmer east portion tonight.

For Minnesota—Showers tonight or Thursday; slightly cooler northwest portion.

For Iowa—Unsettled weather with local showers tonight or Thursday; not much change in temperature.

Weather Conditions

The weather depression has moved slowly eastward causing showers and local thunderstorms from the lower Missouri valley to the lake region and higher temperature in the northern plains states and upper Mississippi valley; else where the temperature changes have been small. It is raining this morning in the northwestern states and at a few stations in the western lake region.

Under the influence of the western low the weather will conitnue unsettled in this section tonight and Thursday and local showers are probable, with no decided change in temperature.

ROOSEVELT TALKS TO IOWA MOOSERS

Colonel Scheduled to Deliver Speech at Hawkeye Third Party Convention

FIGHT ON THE STATE TICKET

Cummins and Others Are Leading Fight to Endorse Republican Slate

DES MOINES, Iowa, Sept. 4. — Practically every county was represented when Chairman Franke of the bull moose state committee called the state convention to order at 10 o'clock today and instructed F. B. Miller of Cedar Falls as temporary chairman. Miller denounced both old parties, urged the nomination of a state ticket, which is opposed by many, and lauded Colonel Roosevelt, whose name was cheered.

A hard fight is expected early this afternoon over the question of nominating a state ticket and the question may not be decided until after Roosevelt makes his speech to the delegates at 3:30 o'clock. The friends of Senator Cummins and Senator Kenyon are bending every effort to head off the new state ticket, and every republican congressman in Iowa is giving them assistance.

Missouri Moose Organie.

ST. LOUIS, Mo., Sept. 4. — The bull moose state convention got going in earnest today by electing as permanent chairman Arthur N. Sager of St. Louis.

The recommendation of the rules committee that a complete state ticket be nominated was carried unanimously. To insure the names getting on the ballot, it was voted that the same candidates be nominated in three ways, by convention, petition and by the state committee.

T. R. Speaks Six Times.

KEOKUK, Iowa, Sept. 4.—It was Iowa day for Colonel Roosevelt today, and the bull moose, with six scheduled speeches throughout the state, prepared to address himself particularly to the farming element.

The extremes of cold and heat of the past few days in New England and the middle west gave the colonel a slightly husky voice at the start today, but the ministrations of a throat specialist who was added to the campaign party yesterday at St. Louis helped him over the rough spots.

BRYAN LIKES RESULTS

LINCOLN, Neb., Sept. 4.—The results of the election in Vermont and the adoption of the progressive amendments to the constitution in Ohio were pleasing to William J. Bryan. Speaking of the Ohio election, Bryan said:

"The amendment with which I felt the deepest interest, was the initiative and referendum, and I am gratified to learn that this has been adopted. With this provision added to the constitution, the people can at leisure amend their constitution to suit themselves, adding what needs to be added and taking out anything they do not like.

"The Vermont election returns are encouraging to democrats. They indicate an increase in the democratic vote, and a very hopeful division in the republican vote."

FALLS FROM HOTEL

MINNEAPOLIS, Minn., Sept. 4.—Following a fall from a third story hotel window the lifeless body of Frank Andre, 50 years old, a state fair visitor from Charles City, Ia., was found at 5 a. m. today on the sidewalk in front of the Northwestern hotel. Andre's skull was fractured. Coroner Seashore said the man had evidently fallen from the window and that he would make no investigation.

VERMONT PLEASES MOOSE

SYRACUSEfi N. Y., Sept. 4—"The news from Vermont eclipsed everything else in the face of 3600 delegates and alternates arriving here today for the first state conference of the progressive party. The result was numerous additions to the field of aspirants for nominations. The leaders insisted that the outcome in Vermont would be far exceeded in this state in November.

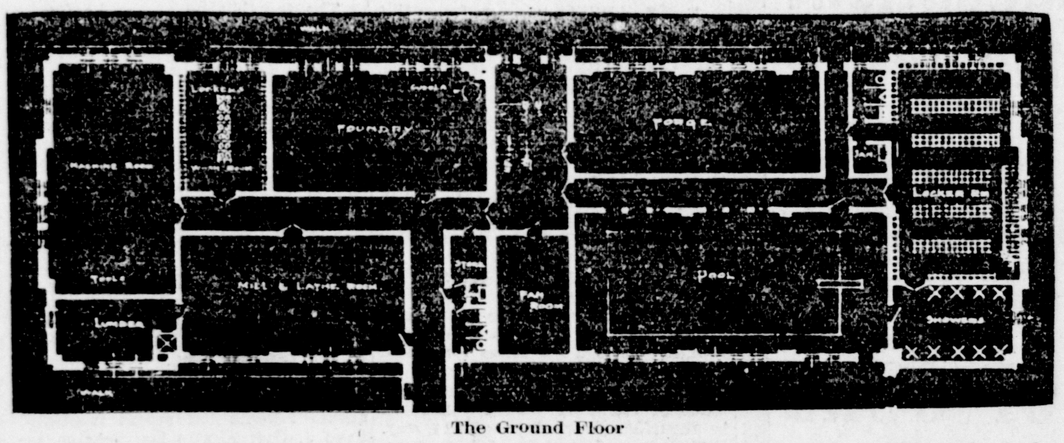

FAIRBANKS HITS T. R.

TERRE HAUTE, Ind., Sept. 2.—What was taken by local politicians to be a veiled thrust at Colonel Roosevelt and other progressive leaders, was made by Charles Warren Fairbanks, vice president under the Roosevelt administration, in a speech delivered at the unveiling of a tablet to Benjamin Harrison here today.

MARSHALL TO MISOURI

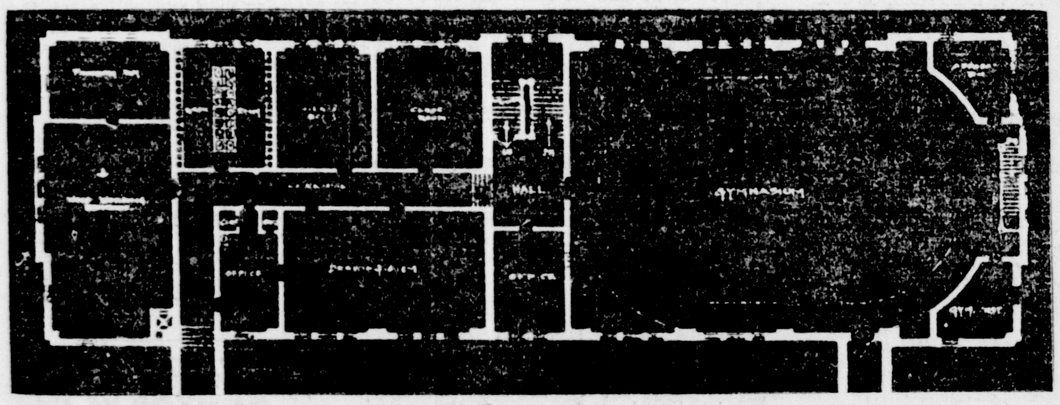

INDIANAPOLIS, Ind., Sept. 4.—Governor Marshall, democratic vice presidential candidate, today accepted an invitation to open the democratic campaign in Kansas at Topeka on the afternoon of September 16.

RULE OF MINE GUARDS ENDED

STATE TO PROBE TROUBLE

Governor Sends Commission Into Kanawha Territory to Discover the Root of Struggle

CHARLESTOWN, W. Va., Sept. 4.—Refreshed by pleasant dreams—the first they had experienced since last April, 5,000 miners and thousands of women and children awoke today believing that the day of the mine guards in West Virginia is over. Through the night they slept under the protection of martial law, proclaimed yesterday for the first time in the history of West Virginia's long and bloody coal struggle.

At Paint Creek Junction, the headquarters of the district under martial law, seven machine guns and 1,500 rifles were held today. The machine guns had been confiscated from the mine operatives, the rifles had been taken from guards and miners alike.

It was the first time that West Virginia had asserted its authority to the extent of dealing out equal treatment to the miner, operator and guard. Heretofore the miners have not been considered on the same terms.

Governor Glasscock's commission went to Paint Creek Junction today to begin taking testimony. The governor has asked the commission to probe every phase of the mine situation in the Kanawha coal field, including the alleged brutalities on the part of private mine guards and the wage question.

BABCOCK ESTATE SETTLED

KANSAS CITY, Mo., Sept. 4.—Mrs. Ellen Babcock of Utica, N. Y., mother-in?law of Vice-President Jas. Sherman, was today awarded the $500,000 estate of Mrs. Mary D. Dickerson, relative who died two years ago. The estate has been in the courts over servants' claims, which were finally settled.

LACK AIR CURRENTS

WASHINGTON, Sept. 4.—A "deficit" in air currents in the east and a surplusage in the west are responsible for the topsy-turvy weather now giving goose bumps to easterners and bathing westerners in perspiration. This was the explanation given today by Chief Forecaster Bowcoff of the weather bureau. No relief is in sight.

Tomorrow

Here's what a literary review has to say of this book: "This has been, without doubt, the big book success of 1912. It became a 'best seller' from the day it went on sale. Its title has grown to be a household word. Exploited and advertised to an extraordinary degree, it has attained a popularity truly wonderful."

DON'T MISS THE OPENING INSTALLMENT

DONT ADVOCATE MANY WIVES AT SAME TIME

BERLIN, Sept. 4.—Not polygamy, but a "rapid succession of wives," was what the Mittgar society meant by the resolution it adopted at its recent convention at Jena, according to a statement issued by the executive committee today. "The Mittgar society does not believe that a man should live in marriage relations with several women at one time," says the committee's explanation. "A man must be strictly faithful to his one wife until the birth of a child, when a separation may be granted, the man marrying another woman, and the woman taking another husband.

"This may be repeated as long as the man and woman are fit for the biological purpose for which, in our opinion, marriage was created. It only differs from the present conception of marriage in the ease with which divorces or separations may be secured and a succession of marriages permitted. We believe it makes for the betterment of the race."

MILITIA ENCAMPS IN PRISON YARD

Jackson, Michigan, State Penitentiary Is Subdued by Five Companies of Troops

ESTABLISH WHIPPING POST

Prisoners Unwilling to Work Today Are Kept in Chains in Cells for Punishment

JACKSON, Mich., Sept. 4.—With five companies of militia encamped in the prison yard and the whipping post re-established, Jackson prison, the scene of convict riots for the past five days, was compartively quiet today.

Since the final riot of yesterday, when fifty prisoners broke out of the bull pen and rushed the kitchen and factory, no outbreaks have occurred.

Today each prisoner was asked if he would go to work. Those that consented were given a special guard and taken to the factory. Those who were stubborn and refused were chained in their cells and it is expected will be punished at the whipping post.

The prison board today believes that they have dealt too leniently with the prisoners heretofore and today Warden Simpson has full power to use whatever measures he may deem necessary to keep order.

That the state troops now on guard dominate the situation is shown by the fact that since they appeared yesterday there has been no outbreak of any importance. They have been successful in silencing the screeching prisoners in their cells also.

About 300 convicts who have been locked in their cells since the first outbreak occurred returned to work today. The chair factory and canning factory was put in operation. There are from fifty to one hundred prisoners who absolutely refused today to return to work. These men will be flogged. Simpson still fears a fire or dynamite plot.

REPUBLICAN VOTE LESS IN VERMONT

G. O. P. Vote Shows Loss of 43 Per Cent Over the Ballots Cast Four Years Ago

MEANS VICTORY FOR WILSON

Democrats Over Country See Prophecy of Victory; Bull Moose Men Sure

BURLINGTON, Vt., Sept. 4.—Official and revised returns from all but thirty-one towns on yesterday's gubernatorial and legislative election, showed the following figures at noon today:

Allen Fletcher, republican, 23,599; Harland P. Howe, democrat, 18,464; Francis Metzger, progressive, 14,204.

The complete figures announced earlier today were unofficial.

The eighty towns still to be heard from on the election of representatives to the legislature are all strong republican sections. In many of these missing towns there were no democratic or progressive candidate for the legislature.

Returns early today with the complete vote from the 246 towns and cities of Vermont gave Allen Fletcher, republican candidate for governor, 26,200; Harland P. Howe, democrat, 20,100, and Rev. Francis Metzger, progressive, 15,700.

Because no candidate received a majority of the entire vote cast, the legislature, which was elected at yesterday's state balloting will choose the governor. It will elect the republican nominee, since the republicans elected 115, the democrats 34, and the progressives 17 members of the house of representatives, with 80 still in doubt. The combined vote of prohibitionist and socialist candidates was approximately 2,800.

Yesterday's vote was a loss of 43 per cent by the republican party over the vote cast four years ago for Governor Prouty. The democratic gain in the same period was 27 per cent. Republican leaders declared the result was a "strong moral victory."

Democrats pointed out that many who went to the polls yesterday openly announced they wouldn't stand for a democratic governor but would cast their ballot for Wilson or Roosevelt in the presidential contest in November. Progressives today were plainly jubilant over the 15,700 vote which their candidate polled. The socialist vote showed a loss of several hundred votes from 1908. The prohibitionists gained several hundred.

Means Wilson

WASHINGTON, Sept. 4. — "The result of the election in Vermont indicates that Governor Wilson will carry pretty nearly every state in the union," said Senator-elect Ollie James, permanent chairman of the Baltimore democratic convention, today.

"I am pleased at the result, but not surprised. It was shown conclusively that the democratic party in the coming election will not only hold its own vote, but get the accessions of some progressive republicans. It was also demonstrated that the Roosevelt vote is to come entirely from the regular republicans and practically none from the democrats."

For Roosevelt

INDIANAPOLIS, Ind., Sept. 4.—The result of the state election in Vermont means a victory for Colonel Roosevelt this fall, was the opinion expressed by Albert J. Beveridge, progressive candidate for governor of Indiana today.

NEW YORK, Sept. 4.—On the results in Vermont, the World editorially today said: "If the Vermont verdict means anything it means a Wilson landslide in November."

The Times: "For the democrats, the figures justify not merely the hope but the firm belief and full confidence that Gov. Wilson will be elected president in November."

The American: "Vermont's vote indicates that the democratic party is holding its full vote but gaining none from either republican faction."

The Herald: "The significant feature of the figures is that the democrats in the face of the bull moose campaign and with an increased total vote of 6,000 cast, have made a net gain of 1,700."

NEW YORK, Sept. 4.—Republican National Chairman Hilles today said that the result in Vermont effectually eliminated Roosevelt from the presidential contest and that republicans who desired to defeat Wilson would have to vote for Taft.

SEA GIRT, N. J., Sept. 4.—"The returns are highly gratifying," said Gov. Wilson today. "You know when the democrats merely hold their own in Vermont it is encouraging, but when they not only hold their own, but gain between 20 and 25 per cent, as they did yesterday, you can be sure it means business. It is significant and encouraging to see from the returns that the third party has not drawn votes from the democratic ticket. Its votes have evidently been drawn from the republicans. It is also evident from the Vermont returns that the vote all over the country this fall will be heavy."

ESCH WINS OVER DAHL BY 2,000; FEW VOTERS OUT

La Crosse Congressman Beats Westby Candidate by Handy Majority

ONE-THIRD VOTE IS POLLED

Socialists and Prohibitionists Are Few; Weber Upsets the Dope

M'DONALD PROBABLE VICTOR

Republican Sheriff Contest May Be Decided by Second Choice Ballots

The Winners in Contests:	
Republican	Democrat
Esch	Webber
Aiken.	
McDonald?	
Smith.	
Schlabach.	

The smallest vote ever cast in La Crosse county was polled in the primary election yesterday, the country districts especially showing but little interest in the contests between and among the various candidates on the republican and democratic tickets. While several of the wards in La Crosse, which were the home of some of the campaigners, turned out in numbers approximating a real election, the returns indicate that the voter at large made no attempt to help straighten out the little difficulties between the candidates on either ticket. It is estimated that about one-third of the average vote balloted yesterday.

Small Socialist Vote

Because of the fact that the socialists "settle their differences out of court," there were no contests on the social democratic ticket and the vote of that party was accordingly hardly worth counting.

The prohibitionists were also conspicuous for their absence and many precincts failed to register a single ballot in the cause of the anti-saloonists. Several interesting contests, however, developed on the democratic and republican tickets, the closest of which were the fight between Aiken and Freehoff for county treasurer and the contest among the candidates for sheriff on the republican side. The sheriff contest is so close that it may require a counting of the second choice ballots to decide who is entitled to the nomination.

The big fight on the democratic ticket was over the head of the ticket and with the assistance of the country vote Schmitz managed to get through with a majority of about one hundred votes. The city of La Crosse gave Karel a fair sized lead over the progressive candidate but the country vote turned the tide from the opponent of the income tax law.

Esch Wins Easily

Conbressman John J. Esch won handily over his opponent, A. H. Dahl. Although the returns from some of the precincts in the outlying districts of the seventh district have not been received, the present indications are that Esch lands the nomination by a majority approaching 2,000. Esch's lead in La Crosse county was strong enough to more than overcome Dahl's small majority in Vernon county. Esch more than held his own in all of the other counties with the possible exception of Jackson. The race in this county is nip and tuck and late reports from the missing precincts may turn the count either way.

John Doherty, candidate for attorney general, ran far ahead of Kading in La Crosse county, but the returns from the rest of the state are too meagre to make any guess as to his nomination.

The fight for the district attorney nomination on the republican ticket aroused considerable interest when the returns were coming in last night but the final count gave Otto Schlabach within ten of a majority over the other two candidates. Schlabach will be opposed by David S. Law at the election.

Webber Upsets Dope

John Webber surprised all the politicians by handily defeating Mike McHugh for the nomination of sheriff on the democratic ticket, while Frank Aiken is the probable nominee for county treasurer on the republican ticket. Aiken's majority will probably be less than twenty votes.

McDonald Choice?

George McDonald of West Salem, will get the nomination for sheriff on the republican ticket, unless the second choice feature of the primary election, which was given its initiation into Wisconsin politics yesterday, gives it to another of the four candidates. The four candidates finished neck and neck with McDonald in the lead by about fifteen votes. A revision of the count may cut this lead down or take it away entirely.

"It's a commercial age," said H. K. Adair, the western detective, apropos of an octogenarian who had been buncoed out of $9,000 by a girl crook of Baltimore. "It's a commercial age," the detective repeated. "In the good old days a man would draw his sword for his love's sake, but now he draws a check."

INSPECTOR LOOKS OVER RACE ROUTE

Representative of Vanderbilt Pleased with Course Laid Out at Milwaukee

E. S. Williams, representing William K. Vanderbilt, Jr., chairman of the contest committee of the Automobile Club of America, visited Milwaukee the latter part of the past week for the purpose of inspecting the new course for the Milwaukee races. This course, as has been announced, is located in Wauwatosa township and is 8.2 miles in circumference. Mr. Williams was highly pleased with the present outlook and commended the Milwaukee people for their activity in preparing the course.

Rebuild Leg.

What is known as the town line leg of the circuit has been entirely rebuilt. It is 1 1-2 miles long and will require 1,800 carloads of crushed stone. No less than 5,600 loads of stone have been purchased to resurface every inch of the way. Eighteen graders, two 45 h. p. traction engines, three gasoline rollers of 6, 10 and 12 tons will follow up the stone dumpers that are being employed. Oiling of the course was commenced about August 20. The dust layer will be scientifically applied and not merely slopped on in great puddles as has been the case with some courses prepared in the past.

Erection of the grand stand was commenced on September 1, and together with this the pits, official stands and other buildings were started. By permitting the oil to sink into the surface for ten days before practice of racing cars is permitted, a much better surface is insured. However, practice spins were permitted beginning September 1.

Definite decision has been reached to place the start and finish line in the center of the Burleigh street straightaway, the stretch which comprises the lower leg of the course. Cars are to run clockwise instead of counter-clockwise as is the custom on speedways. This means that all drivers will have to make right hand turns throughout instead of left hand. By locating the grandstand on Burleigh street the spectators will be afforded a view of a three-mile stretch on each side, and provided the atmosphere is clear on the days of the racing the spectators will be able to see for a longer distance in each direction than has been possible at any road race ever held.

Portion Is Concrete.

A portion of the course is a concrete road 2 1-2 miles in length—the stretch being built by the county at the expense of the Wauwatosa township. Owing to the fact the Elgin road race meet precedes the Milwaukee carnival by less than three weeks, a number of prospective entrants withheld their entries for the Milwaukee event until after their cars have been through the Elgin races. As is well known, the entry fee must accompany the blank in order to make the entry bona fide, and for this reason most of the entrants want to be sure that their cars are in shape for racing at Milwaukee. Nearly all of the competitors participating at Elgin have signified their intention of appearing in the Milwaukee contests.

Telling the Age of a Horse.

The age of a horse may be judged by the appearance of the teeth because on the upper surface of the incisors a hollow is to be seen in the young tooth, which, not extending through the whole substance, naturally wears out with the wear of the tooth, and as a considerable degree of regularity occurs in the wearing away in all horses, it has been adopted as a general criterion of age.

British North Borneo.

British North Borneo has an area of 31,000 square miles and a population, according to the census of 1911, of 208,183. The European residents number 355, Chinese 26,202, Malays, 1,612, East Indians 5,511 and Filipinos 5,700. The number of natives cannot be more than approximately estimated but their number is placed at about 170,000.

Foundation of Heroism.

A light supper, a good night's sleep and a fine morning have often made a hero of the same man, who, by indigestion, a restless night and a rainy morning would have proved a coward. —Lord Chesterfield.

Circumstantial Evidence.

There was considerable chill in the air, and Sniffley didn't know whether it would be wise to begin a conversation with Mrs. Sniffley or not. Finally, however, the silence became too arctic for comfort, and he decided to risk it.

"Beautiful morning, my dear," he observed, as he lathered his chin.

"Don't you talk to me, Mr. Sniffley," retorted the lady. "I am disgusted with you. You needn't fool yourself into think I don't know in what condition you and Mr. Bagley came home last night. I overheard your conversation."

"Conversation!" said Sniffley. "What did I say?"

"You said you didn't know, when Mr. Bagley asked you which keyhole was the right one, and there's only one on the door!" said Mrs. Sniffley.

Another fault some people have is knowing they are right when they are wrong.

300 REGISTER AT NORMAL SCHOOL

Enrollment Will Far Exceed All Previous Records; New Teachers Employed

The fourth year of the La Crosse normal school opened auspiciously yesterday when about three hundred students enrolled in the various courses of that institution. The record for registration day attendance was broken and although exact figures are wanting, President F. A. Cotton felt more than certain that this year's enrollment at the normal would exceed by far the figures of any previous year. Many of the graduating class of the high school last June have become students and from outlying districts and cities all over the state and other states students are flocking to the local normal school for the fall term which began this morning.

Several additions to the faculty were made by the board of normal school regents at recent meetings. Fred J. Carter, who last year coached the high school athletic teams, will have charge of the physical training for men and will coach the various branches of athletics in the school. He is a graduate of the University of Wisconsin and attended summer school at Columbia University. Miss Rena Angell of Belting, Mich., will be in charge of the drawing department in place of Miss Florence Hofflin, resigned. Miss Sonia Ladoff is assistant in the biology department and is a graduate of Michigan University and last year taught at Western Reserve. Miss Cora Vandewater will assist Miss Oltman in music. Miss Vandewater is from Ypsilanti Normal college, Mich.

TOMAH FARMER DIES AT HOME OF SON

TOMAH, Wis., Sept. 4.—Isaac Vanderwoort, a well known farmer of Monroe county, living five miles north of Tomah, died at the home of his son Frank, who resides in the town of La Grange, Monday night. Deceased was born in New York state Sept. 9, 1834, and was 9 years old when he came to Wisconsin, settling near Waukesha in 1866. He moved to Monroe county when the civil war broke out. Mr. Vandervoort offered his services to his country. He enlisted as a member of company L, First heavy artillery. He is a member of the G. A. R, Henry W. Cressy Post No. 42. He is survived by five sons and two daughters, Frank, Edwin and Ode, who are farmers in this county; George of Layner, Vilas county, and Roy of Osseo; Mrs. John Trapp of Tomah and Mrs. Chas. Dickenson of La Grange; also two brothers, Cornelius and James, and two sisters, Mrs. John Johnson and Mrs. Kinne, both of Tomah. The funeral will take place from the home of his son Frank, Thursday at 10:00 o'clock. Services will be held at the La Grange church, and interment will be at La Grange cemetery.

The death of Hatty Peterson, daughter of Mr. C. D. Hall, occurred at their home on McLean avenue on Tuesday forenoon. Mrs. Peterson's health had been failing for some time. She returned to Tomah this spring from Denver, Col., hoping the change would be beneficial.

The public schools opened Tuesday, two hundred and ten being enrolled at the high school. The football squad of about twenty-five boys reported on the campus and did some light work.

Mr. Albert Wagner, druggist at Broadhead, Wis., who has been spending a few days visiting his parents here, was called home suddenly on Tuesday.

Alderman Emil Schmidt returned Tuesday from Rochester, Minn., where he underwent a serious operation two months ago. His condition is much improved. He was accompanied by his wife who has been with him for the past four weeks.

Mr. and Mrs. Fred Haker have been enjoying a visit from their nieces, the Misses Emma and Doris Haker of Milwaukee, and Mrs. Julia Haker of Portage. They returned home Tuesday.

Mr. John Wagner and grandson William Trabunt have been visiting relatives at Wausau. They have been detained on their return on account of the washouts there.

FOR DANDRUFF, FALLING HAIR OR ITCHY SCALP—25 CENT "DANDERINE"

Save your hair! Danderine destroys dandruff and stops falling hair at once—Grows hair, we prove it.

If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, you must use Danderine, because nothing else accomplishes so much for the hair.

Just one application of Knowlton's Danderine will double the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots famish, loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy or too oily, don't hesitate, but get a 25 cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now A 25 cent bottle will truly amaze you.

A trial of the new food drink

Instant Postum

Is a revelation of convenience and satisfaction.

It is made in the cup—**requires no boiling.** Stir a teaspoonful in a cup of hot water, add sugar and cream to taste, and a delightful beverage, much resembling high-grade Java, results **instantly!**

Instant Postum is regular Postum in concentrated form—nothing added. It is absolutely free from the coffee drug, caffeine.

Grocers sell Instant Postum—100-cup tins, 50c; 50-cup tins, 30c.

Coffee averages about double that cost.

WHERE IS THE DIFFERENCE?

It is becoming more and more evident that the only line of demarcation between the republican and the democratic parties at present is in the tariff. The tariff is to be ground upon which the republican leaders hope to appeal to the people this year.

"Tariff for protection," the republican slogan, will clash with the cry of the democrats, "tariff for revenue only."

The democrats will make a sweeping onslaught on protection, declaring that it has been the pop bottle of the interests and that its continuance is only an underhand way of subsidizing monopolies.

The republicans will in turn do much pointing to Grover Cleveland's administration and the harmful effects which were attendant upon the attempt to revise the tariff. They will insist that the replacement of the principle of protection with the principle of "tariff for revenue only" will make it impossible for American manufacturers to continue to pay the present scale of wages and still compete with foreign made goods.

We believe both parties are wrong. The republicans are wrong in believing that tariff for revenue only would so lower the duty upon imported goods that it would leave the market open to the cheap labor of Europe and the democrats are wrong in believing that there would be any material change in the rate if their principle replaces the protective policy.

The reason is simple. Current expenses of the government have increased to such a point that the tariff rate as a whole cannot be materially lowered. In the years which have passed since the democratic principle was tried the expenses of running the government have increastd many fold. The army is far larger, the Panama canal will be a constant drain, we have insular possessions which we did not possess then and in other ways we have laid ourselves open to new responsibilities which of themselves create increased expenditures.

WANTS COAL FIELDS FOR ALL THE CITIES

Secretary of the Interior Fisher, Ballinger's successor in the cabinet, has suggested a plan in connection with the disposal of government coal lands that is in line with the new attitude toward these national resources. He would make it possible for cities to secure 640 acres and towns 160 acres of coal land on condition that the same be developed under proper safeguards to miners and with a provision against assigning or otherwise disposing of the rights thus secured.

His plan at first glance may seem socialistic in its tendency but it is this kind of socialism which is needed if this country is to keep pace with the nations of the world that are taking a direct interest in the welfare and happiness of their peoples. High prices of coal today are due to the fact that we have given away with altogether too generous a hand resources that belonged to all the people. We have not sold our birthright; we have presented it to any one who was willing to go through a few formalities to get it. That the remaining coal fields shall be disposed in the same free and easy manner is absolutely against the present temper of the time.

How Mr. Fisher intends to distribute these lands between big and little cities, between the west and the east, are matters on which the public will feel a legitimate curiosity. The basic idea, however, probably will appeal to the average man as only belated justice to the nation at large.

TOO BAD ABOUT MISS JANE ADDAMS

In company with a number of noted suffragists, who have already expressed themselves as opposed to becoming actively affiliated with any political party until the battle for suffrage is finally won in all the states of the Union, Baroness Bertha von Suttner has come out against the attitude which has been taken by Miss Jane Addams in identifying herself so thoroughly with the progressive party movement.

Others beside the baroness are expressing the thought that a woman who has done so much good as Miss Addams is really above any party and that her work is too big to be encompassed by regular party limits.

Baroness von Suttner, in an open letter, asks for an explanation as to Miss Addams' change of heart on the peace question, in which the Baroness is deeply interested. Miss Addams is also an enthusiastic peace advocate, and the Baroness says: "I have been puzzled by the support you have recently given to a platform which stands for the fortifying of the Panama canal, for the building of battleships as the best means of securing peace, and whose leader protests against the reinstatement of the arbitration treaties between this country and France and England, a treaty that had already been signed by the representatives of the three governments, which had brought the world within a hair's breadth of an official 'league of peace.'"

Of the other welfare movements in which Miss Addams has been so long identified, it is also apparent that each one represents something more vital than can be accomplished by any political party, no matter how strong it may be.

Great movements are bigger and broader than party affiliations. Miss Addams, who has been a citizen of the world, so far as the scope of her influence is concerned, may have placed limitations upon her usefulness. However, we cannot agree that she was under obligation not to affiliate herself with a party machine if she so desired.

A Milwaukee correspondent writes The Tribune:

"I was interested by an article in The Tribune on the meeting of the American Bar Association, purporting to come from here, in which it said McGovern's address was met derisive laughter by the convention. That was a garbled story. He made a verbal slip which convulsed the convention but was warmly applauded and treated most courteously."

It is gratifying to learn that the manners of the American Bar Association are better than its politics.

It is stated that the cool weather of the past year caused a decrease of 1,000,000 barrels in the consumption of beer, but increased the consumption of whiskey; so a prohibitionist must have a hard time deciding what kind of weather to pray for.

A woman in Pennsylvania has smoked one pipe for twenty-five years. She ought to have almost enough tobacco coupons saved up by this time to entitle her to another pipe.

Secretary McVeagh would make bank notes smaller so they will be easier to carry, but most folks could carry a lot more of them than they have right now.

Senator Smith says he wouldn't allow anyone to tear a brick out of the tariff wall. Maybe he's afraid someone will throw it at him.

The gamblers' syndicate in New York could tell as many tales, perhaps, as a board of aldermen in Detroit, Michigan.

From all reports the $3,000,000 Astor baby's talk is just as foolish as a $3 baby's.

A guess is equal to good judgment if you happen to guess right.

Quips and Cranks and Wanton Wiles

Sister's Picture

When sister gets her picture took
She looks just like a Gibson book;
She twists her features like she'd squall,
And don't look like herself at all.
She wears more hair than e'er before
And gets it at the ten-cent store.
She tries to look just like a saint,
And that is what my sister ain't.
She poses like an actorine
'Bout sixteen times or seventeen.
And frets and fumes like all possessed,
Although the artist does his best.
She squints and scowls and can't sit straight
And makes the feller wait and wait.
I don't see what she does it fer,
The pictures never look like her.
I feel like yellin': "Get the hook!"
When sister gets her picture took.

A Good Story Worth Telling

The other day the chairman of the Crieff School Board called, in course of his canvassing tour, at a shop in town, where he happened to meet one of his lady parishioners. With an eye to a vote he went forward to her and said: "How are you, Mrs. —"? "Oh, deed, I hivna been weel for the last five weeks, an' ma minister never cam' tae see me." "Oh, I am sorry to hear that,' replied his reverence; "but I never heard of your illness." "Maybe no'," and, continuing, she said— "I hae been readin aboot that ongaun wi' the minister o' Comrie an' I dinna see what the Comrie folk are makin' a' the wark aboot, for my minister hisna ca'd on me for the last five years." "Indeed," replied the pastor, "and had you a doctor when you were ill?" "I had that." "And did you consult him for your bad memory?" was the clerics parting shot.

Not Recorded

A correspondent sends a story which was told at a meeting of the Aberdeen Border Counties' ossociation. The tale has reference to a gentleman well known on the Borders, and an old worthy who happened to be the possessof a particularly fine flower garden. The gentleman one day remonstrated with Wattie. "Wattie," he said, "I'm ashamed of you. Here you've a nice garden, with nothing in it but flowers. Why don't you grow vegetables?" "Weel, sir," replied Wattie, "it is a peculiar fac' that you an' my pig baith think the same thing!" The old gentlemans response was not recorded.

On the Wrong Side

Once some workmen were repairing a railway track which ran for some distance beside the fence of a lunatic asylum when an inmate of the asylum approached one of the laborers, and from his position on the inner side of the enclosure began a somewhat personal conversation. "Hard work that?" he said. "Troth an' it is," replied the laborer. "What pay dae ye get " "Sixteen bob a week." "Are ye mairret?" "I am, worse luck—and have six children besides." A pause. Then said the lunatic: "I'm thinking, ma man, ye're on the wrong side o' the fence."

Wrong Side of the Fence

An office seeker was pleading for votes at a picnic adjoining the Osawatomie Asylum grounds. "The trouble is you farmers are not getting enough for your products," said he. "You are entitled to get more." Then turning to a bunch of laboring men from the town, he said: "Something must be done to bring down the cost of living to you. I propose to help make life easier for you."

An insane man standing on the asylum grounds over the fence from where the spellbinder was holding forth took a hand in the conversation.

"You expect to bring down the cost of living to the laboring man in town by raising the prices of farm products?" he asked.

"Well, er, that's the idea," replied the spellbinder.

"Better clim over this fence," said the crazy man. "You belong on this side."—Kansas City Journal.

HOW WOMEN CAN SAVE MONEY

(Ella Ellis in the Arch.)

"Women save a good part of the cost of many dainty aids to beauty if they purchase the necessary ingredients at the drug store and mix them at home. For less than a dollar you can make a six month's supply of the finest shampoo powder known—one said to really cause hair to grow long, thick and glossy. Just mix four ounces of orris root with a package of genuine therox, sprinkle a little on the head, brush out, and your hair will be clean, wavy and beautifully lustrous.

"The electric needle for removal of superfluous hair is expensive and painful. A paste made of plain delatone and water accomplishes the desired result quickly and safely. Cover the hairs with the paste, let it remain a few minutes, remove and wash the surface.

"When eyebrows are thin or lighter in color than the hair apply pyroxin with the finger tips. To make the eyelashes long and darker in color, gently massage the lash roots with pyroxin.

"A true complexion beautifier that removes freckles, tan, sunburn, dark and muddy patches and other blemishes, can be made cheaply by dissolving four ounces of mayatone in a half-pint of witch hazel. Use instead of powder. It makes the skin fair, smooth and satiny."

YOUR GRAY HAIRS QUICKLY VANISH

A Harmless Remedy, Made from Garden Sage, Restores Color to Gray Hair

A feeling of sadness accompanies the discovery of the first gray hairs which unfortunately are looked upon as heralds of advancing age. Gray hair, however handsome it may be, makes a person look old. We all know the advantages of being young. Aside from the good impression a youthful appearance makes on others, simply knowing that you are "looking fit" gives one courage to undertake and accomplish things. So why suffer the handicap of looking old on account of gray hairs, when a simple remedy will give your hair youthful color and beauty in a few days' time?

Most people know that common garden sage acts as a color restorer and scalp tonic as well. Our grandmothers used a "Sage Tea" for keeping their hair dark, soft and luxuriant. In Wyeth's Sage and Sulphur Hair Remedy we have an ideal preparation of Sage, combined with Sulphur and other valuable remedies for dandruff, itching scalp and thin, weak hair that is split at the ends or constantly coming out. A few applications of this valuable remedy will bring back the color, and in a short time it will remove every trace of dandruff and greatly improve the growth and appearance of the hair.

Get a fifty cent bottle from your druggist today, and notice the difference in your hair after a few days' treatment. All druggists sell it, under guarantee that the money will be refunded if the remedy is not exactly as represented.

Couldn't Cure That Trouble

A woman consulted an oculist about her husband's eyesight, saying she wanted a very strong pair of glasses for him.

"I fear I cannot recommend glasses without first seeing your husband," the oculist said.

"He won't come at any price," was the reply.

"Then tell me something about him. Can he see objects at a distance, or does he experience difficulty when reading. For instance, could he see that pigeon which is flying up above us?"

"Rather!" the woman said. "He'd spot a pigeon on the wing quicker than he'd see an aeroplane, especially if he'd got a bet on it. What I wants yer to cure is his shortsightedness when he's seekin' work. He's been lookin' for a job ten years, and never seen one to suit his fastidious eyesight yet!"

The oculist regretted that he could not deal with the case.—London Tit-Bits.

Vicarious Sea Bathing

Woodrow Wilson, at a dinner at Spring Lake, said of the multi-millionaire:

"After all, most of his wealth is superfluous. When I think of a multi-millionaire's millions, I am reminded of a story about Gobsa Golde.

"'I have four English men servants,' said Gobsa Golde, on the terrace of his marble cottage at Newport—'four English men servants whose duty it is to look after my sea bathing.'

He cleared his throat pompously and continued:

"'The first has charge of my bathing suits, the second takes care of the bath-houses and the showers and the third, in a small boat, acts as a kind of life guard to me.'

"'But the fourth—what does the fourth do?' a listener asked.

"'Oh, he takes my bath. Sea bathing always has a depressing effest on my heart.'"

SAYS MOTHER SHOULD WHIP

WASHINGTON, Sept. 4.—Mothers, not fathers, should apply the birch to their unruly children, according to Juvenile Judge Callan.

"Mothers ought to do all the whipping," he said today. "They are not so apt as fathers to overdo the thing. Too many fathers lose their tempers, when they sail in with a stick."

WHAT S.S.S. STANDS FOR

The familiar letters, S. S. S., stand for Siwft's Sure Specific, a name honestly and fairly earned by a great blood remedy. It is worthy of its title because it really CURES every ailment resulting from impure blood. The majority of physical afflictions are caused by bad blood, because a weak, polluted circulation deprives the system of its necessary strength and disease-resisting powers. S. S. S. cures every disorder which comes from weak or diseased blood, it tones up and regulates every portion of the system, and creates an abundant supply of nourishing properties which fill the circulation and bring health to the body. S. S. S. is made entirely of healing, cleansing roots, herbs and barks, which are also possessed of great tonic properties. It does not contain a particle of mineral or other harmful drug, and is therefore the purest and safest blood medicine for young or old. S. S. S. cures Rheumatism, Catarrh, Sores and Ulcers, Skin Diseases, Scrofula, Malaria and all other troubles of a deranged circulation. Write for free book on the blood and any medical advice. ALL WEIGHTS ARE LIGHT TO RAPOLI

Juggler at Majestic Handles Cannon-Balls and Paper Wads at Once with Ease

Rapoli, great German juggler, closes the bill at the Majestic this week with feats of dexterity and strength that have never been surpassed at the local house. Rapoli handles cannon balls and paper wads at the same time with ease, and does new and very difficult stunts with seven and eight rubber balls at once. His one big stunt is that with a wagon wheel, weighing something like fifty pounds, which he spins lightly in the air at the point of a spear and then deftly impales upon the spike of a helmet which he wears. He also displays wonderful dexterity in balancing two eggs end upon end on a billiard cue with a second cue surmounting the whole. All of his feats are startlingly new and breath stopping.

The balance of the act is of the same calibre. There is a singing and talking act, staged by Mason and Murray, which is one of the cleverest things which has been heard here. Frederick and company have a pleasing and mystifying magic and illusion act, which introduces many new deceptions. Emil Hoch and company present a first class sketch called "Love's Young Dream." There is also a pair of instrumentalalists, called the Banks-Braezeale duo, which evokes sweet music in a pleasing way.

MOSQUITOS THERE WITH CAN OPENERS

A party of north side young men who went on a fishing trip to Pigeon Island last week had their trip brought to an abrupt close because of the vast number of mosquitoes which inhabited the place and forced them to abandon their outing. As evidence of the size and number of mosquitoes in the vicinity they exhibit a dish pan with a large hole in it which they claim was made by four mosquitoes alighting on it.

Joe Gilberg, John Hayes, S. Barry, Bert Bice and George Pratt were in the party which went to Pigeon Island last Friday for a week's fishing trip. They went up in Mr. Bice's launch but mosquitoes that evening caused them to come home the next day.

According to the story told, four mosquitoes alighted on a dishpan at the camp and bit a large hole in the pan. This pan is on exhibition and may be viewed by anybody who desires to see how hungry the mosquitoes are in the neighborhood of Pigeon Island. Mr. George Pratt was so badly bitten by the mosquitoes that it is feared that he may get blood poining in his arm.

Famous Pearls in History.

We read of pearls—oyster pearls, as they were called—in Chinese records dating back nearly 3,000 years, and Persian history and Persian poetry abound in mention of the pearl as a symbol of purity, and this association of ideas has persisted until the present day. But it is a curious fact that though we have read so much about famous pearls which have played great parts in history, there is hardly an authentic instance of any pearl being still in existence which has any antiquity of its own or made history of any importance. This is partly due to the fact that valuable pearls were nearly always stolen in the brave days of yore, and their unlawful owners had good reason for concealing their historical identity.

AUTO KILLS FARMHAND

FORT ATKINSON, Wis., Sept. 4.—While driving his father's automobile, the young son of Frank W. Hoard, business manager of Hoard's Dairyman, ran into Nels Taxom, the injury proving fatal. The coroner's jury exonerated young Hoard from all blame.

POACHERS SHOOT WARDEN

CAMPBELLSPORT, Wis., Sept. 4.—Poachers on Horicon marsh fired on Game Warden Bruret while he was attempting to drive them from the private grounds of the Horicon Shooting club. The warden sustained a slight injury over the right eye.

NEW TURNTABLE FOR BIG ENGINES

The new fifty-foot turntable, which was made a necessity here because of the many large new superheater engines which are now being used, has arrived in the city and work on installing it in the C. M. & St. P. roundhouse on the north side was begun this morning. This turntable will take the place of the thirty-eight foot turntable which has formerly been used at the roundhouse.

The new turntable came to La Crosse from Gary, Ind., and it is expected that it will be completely installed in the roundhouse here within a short time. It will be a big improvement over the old turntable and it will also be a good addition here for by means of it the engines can be handled more speedily and efficiently and there will be no delay in transportation.

KLEINSMITH FUNERAL

The funeral of Charles Kleinsmith, who fell from a tree Monday and was killed, will be held tomorrow morning at 9:30 o'clock from the residence, 327 Caledonia street, with Rev. Buchholz officiating at the services. Burial will be made in the Catholic cemetery.

Enough for Him.

"Remember, my son, that beauty is only skin deep," warned the sage. "That's deep enough for me," replied the young man. "I'm no cannibal."

WAUSAU TAFT MEN FORM ORGANIZATION

WAUSAU, Wis., Sept. 4.—At a meeting of republicans last night a Marathon county branch of the Wisconsin Republican league was formed and republicans in other counties invited to organize similar branches; when twelve or more such county branches have been formed, a state convention will be called to organize a Wisconsin Republican league. Any voter pledging himself to support the republican national platform and the candidates nominated by the republican national convention, may be enrolled as a member.

TWO DROWN IN CHIPPEWA FLOOD

CHIPPEWA FALLS, Wis., Sept. 4—J. Karhoff of Philadelphia and J. F. Bransfield of Boston were drowned in the Chippewa river at Cornell, where a swinging bridge over the new dam broke. They were working on the bridge and were thrown into the deep, swift current. A companion was thrown into the river, but escaped by clinging to a plank.

At the Bridge Club.

"Why did you prohibit jewelry at the meetings of your bridge club?" "It became too easy to signal for trumps. Nearly every one of the players wore a heart-shaped pendant, a solitaire diamond, a marquise ring that looked like a spade and a clover-leaf brooch."

In 1975.

Grandma—"So you have even arranged your wedding anniversaries? Isn't that lovely!" The Bride—"Yes. Silver the first year, gold the third, diamonds the fifth, and radium the tenth, if it should possibly happen that we aren't divorced by that time."

Work.

Man must work. That is certain as the sun. But he may work grudgingly, or he may work gratefully, or he may work as a machine. He cannot always choose his work, but he can do it in a generous temper and with an up-looking heart. There is no work so rude that he may not exalt it; there is no work so impassive that he may not breathe a soul into it; there is no work so dull that he may not enliven it.—Henry Giles.

FIRST MARCONI WIRELESS SCHOOL IN AMERICA OPENS IN NEW YORK; GREAT DEMAND FOR WIRELESS OPERATORS ON LINERS

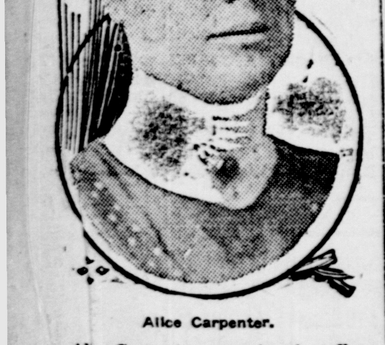

M. G. Marconi and Marconi Wireless School in New York.

A new profession has opened up for young men. It is wireless telegraphy. In one of the accompanying pictures is shown the first Marconi wireless school in the United States, recently opened in New York. The last congress passed a law making it compulsory for ocean liners to carry two wireless operators each, and the demand for operators now exceeds the supply.

The photograph shows students of three different classes practicing the continental codes. It will be noticed that wireless messages are taken through telephone receivers and not on the Morse sounder. The dots and dashes of the Morse code are created by an apparatus which gives an exact duplicate of the sound produced at receiving stations on ships far out at sea.

MUSICAL COMEDY GOOD

MAJESTIC TO STAGE "SUNNY SIDE OF BROADWAY" FOR HALF WEEK STARTING TOMORROW MATINEE

The first of the musical comedies with which the Majestic plans to break the monotony of continual vaudeville will appear at the local house tomorrow, for a half week's engagement. The show is "The Sunny Side of Broadway," with Max Bloom in the leading role.

The attraction has played for five consecutive seasons at a dollar and a half prices but this season, Mr. Boyle Woolfolk, author and proprietor of the attraction, was induced to place the show in vaudeville. It is undoubtedly the highest priced show of its kind in the variety houses as the cast is the same as played in the legitimate houses; but its success has been phenomenal enough to break the records of eighty per cent of the houses it has played, and consequently has repaid the managers in securing the show. It is comedy all through, interspersed with real catchy music and a very atractive chorus.

Practical Has to Be Looked To.

A journalist talked recently with a struggling composer. He inquired whether the words of the great masters did not inspire the musician. The musician granted that they did, but that they do not inspire confidence in landlords when the rent was due, an occasion for which it was well to be prepared even if you had to play cheap melodies to do it.

MORGAN SAID TO BE WITH REPUBLICANS

J. P. Morgan.

It was reported from New York a few days ago that J. Pierpont Morgan had definitely determined to vote for President Taft this year. The next day Mr. Morgan contributed $10 toward the Progressive cause. The New York newspaper which he is supposed to control is championing the cause of Mr. Wilson. The financier himself declares that he is on the fence and doesn't know who he will vote for.

OHIO TURNS DOWN WOMAN SUFFRAGE

All Other Amendments to Constitution Go Through; Suffrage Loses by 50,000

COLUMBUS, O., Sept. 4.—Ohio has taken front rank among progressives states of the union. With the exception of woman suffrage and possibly one or two minor amendments the entire work of the constitutional convention appeared today to have been ratified by the people in yesterday's special election. With only about fifty per cent of the vote of the state polled, indications at 8 o'clock were that the initiative and referendum, home rules for cities, minimum wage, judicial reform, state-wide primaries, taxation reform, good roads and liquor license were adopted by pluralities ranging from 10,000 to 60,000.

Woman suffrage was defeated by about 50,000. It is believed that the amendment providing state-wide primaries will have the largest plurality with minimum wage second, home rule third, liquor license fourth, and then the initiative and referendum.

Suffrage leaders today conceded defeat by fifty thousand, but they were far from discouraged, and it was announced at headquarters here that the campaign would be reopened at once and the initiative and referendum would be used in a second effort to secure the ballot for women.

The fight for equal suffrage in Ohio took on national sifinficance during the final days of the campaign, owing to the invasion of the state of practically every prominent suffrage crator in the United States. Dr. Anne Shaw and Mrs. Harriet Stanton Blatch were among the national leaders who campaigned. Militant tactics were absent in the campaign, the women confining their efforts to "educating" the voters through literature and oratory.

T. R. WINS CALIFORNIA

MOOSE PARTY SWEEPS THE GOLDEN STATE AND GAINS CONTROL OF THE STATE MACHINE

SAN FRANCISCO, Cal., Sept. 4.—Virtually complete returns today from the primaries held yesterday show that the progressives swept the state. They have carried a majority of the legislative districts, thus giving control of the organization to the Roosevelt faction. In the congressional contests, the Taft faction has possibly split even, the district being about evenly divided between Taft and progressive candidates.

The result of the election makes it certain that the name of the Roosevelt electors will go on the regular presidential ticket.

PLAY FOR PENNANT

BOSTON, Sept. 4.—What is generally regarded as the deciding series in the fight for the 1912 American league pennant, begins here this afternoon at Fenway park between the Red Sox, leaders, and the Washington team. Ray Collins for Boston and Cashion for Washington were slated to do the pitching. There were special excursions into the Hub from nearby points. A heavy rain that lasted until four a. m. has made the field soggy. Shortly after nine o'clock murkiness gave way to a drying sun and all attendance of Boston base balldom were expected to go.

It wouldn't take long for most people to tell what they think of you.

THE CANDIDATES TODAY

Republican—President Taft returned to Washington to address the International Association of Applied Chemistry.

Democratic—Governor Wilson went from Sea Girt to New York to speak at a workingmen's dollar dinner.

Progressive—Colonel Roosevelt toured Iowa enroute from St. Louis to Des Moines.

DIAMOND RINGS

Never before have we sold as many diamond rings as we are now selling. There must be a cause for this large increase in our diamond ring business. The real reason is on account of our large assortment, high quality and beautiful styles, combined with our low prices. On account of selling strictly for cash we never suffer a single loss, and it stands to reason that we can afford to ask a smaller profit on every ring sold. Every ring sold by us is mounted in a solid gold 14k mounting. A comparison of prices will prove.

HISS KAISER; PINCHED

TWO ITALIAN SOCIALISTS HELD BY SWISS POLICE AND AUTHORTIES FEAR MORE ATTEMPTS

ZURICH, Sept. 4.—For hissing the kaiser, who is here to see the Swiss army maneuvers, two Italian socialists were arrested today. They will be held charged with disorderly conduct until after his majesty's departure and then probably freed.

The authorities are much worried concerning the German ruler's safety. Swiss law does not permit the arbitrary imprisonment of mere political suspects. They must first commit some actual offence. It is known that several bitter foes of the monarchial institution are at large in Zurich and his guardians are fearful of an attack on the visitor.

The first Swiss official to welcome the kaiser, however, when he crossed the frontier, was Herr Blocher, the socialist leader, who was commissioned to greet his majesty in the name of President Forrer, the government and the canton of Bale. Theoretically the Swiss socialists are hostile to the visit, but they are glad the kaiser came because they think his visit will promote Switzerland's trade with Germany.

Montessori Method Defined.

Probably you have heard vague rumors in the publications of this country—daily, weekly and monthly—of the "Montessori Method." Have you ever wondered just what this phase means? Well, here is the answer, simply and directly expressed. Are you ready? The Montessori Method is the education of the stereognostic sense, alias the visual perception of differences and dimensions, in children of pre-kindergarten age. That's all there is to it.

Spared Money to Feed Her Mind.

An English typist who stated her earnings and expenditures in answer to the London Board of Trade's circular, spent $2 for eight volumes of Grote's "History of Greece." Her wekly wage was $6.25. During a year she spent $5.50 on eleven birthday presents. A girl who earned $4.25 a week bought pamphlets describing the English poor laws and poor law commission.

PUBLIC DEBATE

We are told of the riches of the farmer but the 1910 census shows that the average farm in La Crosse county with an investment of $5,411 after paying insurance, taxes, five per cent on investment, then wages to the hired labor and general farm expense, pays the farmer and his family less than $1 per day for labor 300 working days of a year; to be exact, the average farm family in La Crosse county, in their best years, has received only $257 per year for the labor of the whole family while the average farm mortgage of $2,144 gives $150 interest to the bankers at seven per cent as a "divided up."

Of the 1,374 farms in La Crosse county, only 109 are owned free by the men on them, so the figures given above are rather higher, no lower than the average.

Someone has said that the socialists want to "divide up" the farms but it looks like the bankers had beat them to it.

CARMEN BALK AT MONTH'S DELAY

Issue Ultimatum that Their Terms Must Be Met Within 24 Hours or Strike Will Come

CHICAGO, Sept. 4.—Just when it seemed that the controversy between the officials of Chicago's electric transportation lines and their fourteen thousand employes was about to be settled by amicable measures, industrial warfare loomed on the city's horizon today and a disastrous street car strike is threatening. Following a month of negotiating between the men, the companies' officials and Mayor Harrison, the unionists suddenly withdrew from the conference and issued an ultimatum, precipitating a crisis. The men's dictum gives the employers twenty-four hours in which to meet the employes' terms or face a general walkout.

"The joint committee," the ultimatum says, "has become convinced that, by their dilatory tactics, the employers are endeavoring to create dissension among the unionists. Therefore, we offer the companies twenty-four hours in which to meet our terms or face what measures we may see fit to take to bring about the ends we desire."

Ready Explanation.

"Judge, I ain't no vagrant. I'm in hard luck now, but I've seen better days." "But this officer says you have been arrested repeatedly." "He must be alludin' to the times when I owned me own automobeel."

Excellent Evidence.

A witness at Shoreditch (England), asked why he had borrowed a certain pencil from the plaintiff, replied: "To sign that document." "But it is signed in ink," said his honor. "Then I couldn't have had the pencil," replied the witness.

T. R. TO TESTIFY AT INVESTIGATION

Senator Clapp Announces that Colonel Will Be a Witness in Standard Oil Matter

WASHINGTON, Sept. 4.—Senator Clapp, chairman of the senate campaign fund probing committee, today announced that Roosevelt would surely be a witness before the committee to tell what he knew about the $125,000 Standard Oil contribution to the republican national committee in 1904.

He was unable to say on what date Roosevelt would probably make his appearance here, but that if the colonel's speaking dates conflicted with the committee's plans, the committee would probably change its plans to suit Roosevelt's convenience. The resumption of the committee's hearing, the senator said, would be some time near September 30.

Clapp said the committee was determined to make a thorough probe of campaign funds, and that it might be found necessary to subpoena some of the packers to determine whether the Beef trust figured in the 1904 campaign fund.

Clapp expects William Loeb, Jr., and George B. Cortelyou, to appear before the committee as soon as it meets.

TRY DETROIT ALDERMEN.

DETROIT, Mich., Sept. 4.—While the examination of Alderman Lynch, accused of promising to accept a bribe was going on in police court today, the arraignment of Aldermen Glinnan, Tossy, Brozo and Ostrowski, bound over by Justice Stein on graft charges, was going on in the recorder's court. The examination of Lynch was continued from yesterday, when Alderman Mason, accused of boodling, was bound over to recorder's court for trial. In binding over Alderman Mason, Justice Stein admitted that the evidence adduced at the hearing was very flimsy.

WOMAN FOR JUDGE

SAN FRANCISCO, Sept. 4—A feature of the California primaries developing today was the nomination of Lucy Goode White, for a superior judgeship. She is a niece of the late Supreme Court Justice John Marshall, a socialistic member of the Illinois bar, but has not yet been admitted in California. Miss White polled 6,841 votes.

PARIS, Sept. 4.—Several members of a rescue party were killed today by a second and third explosion in the Clarence coal mine near Bruay, where about forty men were killed by a blast yesterday.

The White Sox trimmed the Tigers in the first game and played them to a 12-inning tie in the second. Cobb kept in the limelight stealing bases at will.

DELAYED RETURNS CAUSED BY FIRE

Onalaska Electric Current Is Shut Off During Blaze to Prevent Fire from Spreading

A fire in the city of Onalaska last night which resulted in the turning off of the electric current to prevent the fire from spreading, caused a delay of a half day in counting the Onalaska returns.

The overturning of a lamp is believed to have caused the fire which started in the front end of Earl Dunlap's confectionery store at about 11 o'clock last night. The fire followed the wires leading from the building, and fearing that the adjoining buildings might be destroyed by fire in this manner, the current was shut off, leaving the election clerks in darkness. The fire continued until after midnight and the counting of the returns was finally postponed until this morning and were completed at noon today.

Although the front end of the building was badly damaged, the fire department managed to get the fire under control in a short time and saved the greater part of the building. The loss is about $100.

MOTORMAN IS KILLED

CHICAGO, Sept. 4.—J. J. Johnson, a motorman on the La Grange interurban train on the Metropolitan elevated crashed into the traction car at Fifty-second avenue and 22nd street, early today. At this point the "L" trains run on the ground. This is the second serious accident on the LaGrange line within a week. Last Thursday a dozen persons were seriously hurt when a car was struck by an Illinois Central train.

TAR COLLEGE FRESHMAN

GOLDEN, Col., Sept. 4.—Four freshmen are confined to their beds today and fifty others are busy scraping tar, mucilage and paint from their bodies, following a hazing bee by the sophomores of the School of Mines here. Tarred and feathered, the freshmen were taken to a local theater, and forced upon the stage to sing.

ENGLAND WINS TROPHY

HUNTINGTON, L. I., Sept. 4.—England won the Harmsworth trophy by taking the third of the international motorboat races with the Maple Leaf IV.

The American defender Baby Reliance, which won Saturday's race, finished second this afternoon. The British challengers won yesterday's race, making two out of three.

When a young man returns to his home in a small town from a larger city, he has considerable difficulty in concealing his feeling of superiority.

Monticello Sterling Silver Tableware

STRONG AND SIMPLE, YET ORNATE AND ARTISTIC

Here is a pattern designed in harmony with the art of the colonial period, bearing the true characteristics of colonial house furnishings. Like the product of the colonial craftsman, it is strong and simple, yet ornate and artistic. The Monticello pattern is a fitting and beautiful accompaniment to pierced and deposit ware, now so much in vogue. It meets the present demand in taste and fashion.

RETURNS OF FIFTH WARD DISAPPEAR

Election Clerks Say Sample Ballots with Returns Are Stolen from Police Station

FORGET TO SEND IN RESULTS

Clerks File Report and Know Nothing of the Outcome; School Boy Comes to Rescue

Who stole the election returns of the Fifth ward? With somber brow and expressive ejaculation the alderman declares he is completely mystified, while the other inspectors and election clerks freely admit that they know nothing about it.

The mystery developed last night, when after completing the count Alderman Otto Granke filled out a sample ballot for the information of the other wards which according to his story "took wings" during an unguarded moment in which he withdrew his eyes from the all important document of information.

Sleepiness then overcome the curiosity of the election officers who departed for their homes and peaceful slumber while politicians and voters throughout the city waited patiently for the Fifth.

Finally roused to desperation at the delay of the Fifth, telephones were called into service at an early hour this morning only to bring the weary waiters the information that the election officers had gone home hours before. Attempts to arouse them brought no result and the effort to get the Fifth was finally postponed until this morning.

Inquiry today resulted in the information that J. W. Smith, inspector had sealed the official returns and filed them with the county clerk, thus sealing all information from that source and that Otto Granke, John M. Weber and John Knebes, election officers had failed to make a note of their returns and knew nothing of how the various candidates stood in their ward.

As a last hope, attention was finally turned to Joseph Gale, the Fifth election clerk, who upon request to relieve the anxiety of the voters, stopped his political discussions long enough to draw one torn section of a sample ballot, containing a few of the returns, from his hip pocket. The only other piece of information he was able to impart was that "the democrats are leading the republicans."

The information which the election clerks had been unable to furnish was finally produced by Raymond Dwyer, a school boy who had been sufficiently interested to make a copy of the official returns.

BRADLEY LYON DIES IN LOS ANGELES

Bradley L. Lyon, formerly of La Crescent, died of spinal mengitis at Los Angeles, Cal., on Thursday, August 29 and the remains arrived in La Crosse last evening at eleven o'clock.

Mr. Lyon was eighteen years old and he left La Crescent for the west seven years ago. Surviving him are his mother, three brothers and six sisters.

The funeral was held at the Methodist church at La Crescent this afternoon at one o'clock with Rev. Finch A. Clark officiating at the services. Burial was made in the Mount Hope cemetery at Hokah.

ASTOR BABE GETS GUARDIAN

NEW YORK, Sept. 4.—The reprobation of the will of the late John Jacob Astor, made necessary by the birth of the newest John Jacob Astor, today was indefinitely postponed by Surrogate Fowler. Edgerton L. Winthrop, president of the board of education of New York, was appointed guardian of the youngest Astor.

BURIED BENEATH AN 8 TON ENGINE

Pinned Beneath Wheel of Traction Engine Which Falls Through Rockland Bridge

ENGINE DROPS TWELVE FEET

Turns Turtle After Crashing Through Bridge and Sinks Into Mud; Man Will Recover

Henry Miles of Leon, Wis., narrowly escaped death yesterday when he was partially buried beneath an eight ton traction engine which crashed through a bridge near Rockland, dropping twelve feet into the mud below.

Miles was riding on the engine when the bridge weakened. As the engine approached the center, the supports gave way and with a crash the engine dropped through, casting the timbers of the bridge aside like chips.

The engine turned completely over and buried itself deep in the mud. Miles was carried with it and one leg was pinned down by one of the wheels. He lay for hours unable to move before discovered by a farmer, who summoned medical aid and assistance to remove him from under the engine.

When examined by Dr. Evans or Bangor it was found that large strips of flesh had been torn from the leg which had been buried beneath the engine and that he was otherwise seriously bruised. He was removed to the Sparta hospital where it was announced that he will probably recover.

The physician today declared that the mud alone saved his life and that if the engine had fallen on solid ground his leg would have been crushed from the rest of the body and would have caused his death.

CAN'T REMEMBER; GETS $15 FINE

Fred Cale, who was arrested for assaulting Fred Romanowsky, a drayman, when arraigned in court today declared that he remembered nothing of the affair. According to Romanowsky, Cale committed another assault upon him after he had procured the warrant for his arrest, but before it had been served. Cale paid a fine of $15.

Long Courtships.

Young ladies in Russia are not at all averse to long engagements, and use all sorts of artifices to stave off the wedding day as long as possible; but in no country in the world are courtships so abnormally long as in Bohemia, where engagements commonly last from 15 to 20 years. In fact, there recently died there, at the age of ninety-nine, an old man who had been courting for 75 years, and who was married on his death-bed.

Healthy Palms.

An olive oil bath is an excellent thing for a palm or fern. Pour two tablespoonfuls of olive oil at the root of your plant about once a month. You will immediately note the difference in the plant. It becomes a healthy green and the leaves fairly sparkle in the light. If your plant is small, you will not need so much oil.

1 DEAD, 11 MISSING IN RESORT BLAZE

Ocean Park in California Is Destroyed and 1,000 People Are Made Homeless

PROPERTY LOSS $3,000,000

Six Blocks in Business District and Million Dollar Pier Are Destroyed

OCEAN PARK, Cal., Sept. 4.—With one known dead, eleven missing and 1,000 persons rendered homeless, the fire which swept Ocean Park last night was still burning in spots today. The property loss is close to $3,000,000.

H. S. Locke, operating in Frazier pier, is known to have lost his life. Several women and children are among the missing. Hundreds of Los Angeles firemen are still working on the ruins today, and this city is practically under martial law. The state militia and Los Angeles police are patrolling the ocean front to prevent looting.

A defective flue in a clam chowder restaurant started the conflagration. The burned area extends over six city blocks in the heart of the business section. The hotel and apartment house district was leveled and hundreds of concessions and beach attractions were wiped out.

The Frazier million dollar pier was burned to the water's edge.

Two Weak Spots.

"Well," said the old man, after the college commencement, "I've made a lawyer out of John, a electric science feller out of Bill, a professor out of Thomas, while James is a preacher an' Dick's a politicianer; but I'm thinkin' it'll take about all that John, Bill, Dick an' myself kin make to keep the professor an' the preacher above high water."—Atlanta Constitution.

Geese His Favorite.

Gerrald, the five-year-old son of a hotel proprietor, was permitted to go with his nurse to a large farm in the country, the home of the nurse's parents. After returning home his father said: "Now, Gerrald, tell us who of all the folks on the farm you liked best?" "The geese," promptly answered the boy, "because they eat a little and talk a little and bow to you."

Patriarchal Turtle.

A mud turtle, said to be 180 years old, has been in an Albany (N. Y.) family 65 years. Wrinkled skin, broken shell and twisted claws indicate its old age. It is very friendly with the house cat and night finds them under the stove with the turtle's head on the cat's paws.

MANY ATTEND MISS NEWBERG'S FUNERAL

Funeral services for Miss Fred C. Newberg, who died Monday morning, were held from the residence, 421 South Tenth street, this morning at 8:30 o'clock and from St. Joseph's cathedral at 9 o'clock, with many friends and relatives in attendance. Rev. Sluyter officiated at the services.

The honorary pallbearers were the Misses Anna Hackner, Mary Dvorak, Elizabeth George, Nan Bartel, Lillian Degendish and Emily Imhoff. The active pallbearers were Alfred Miller, Joseph Roth, Edward Kelly, Harold Cummings, Dan Whalen and Julius Weisberger.

STOMACH SICK, SOUR, UPSET AND FULL OF GAS? PAPE'S DIAPEPSIN

In five minutes! Time it! All Indigestion, Heartburn and Dyspepsia gone and your stomach feels fine.

Wonder what upset your stomach—which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if sour, gassy and upset, and what you just ate has fermented into stubborn lumps; your head dizzy and aches; belch gases and acids and eructate undigested food; breath foul, tongue coated—just take a little Diapepsin and in five minutes you will wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have a bad stomach. A little Diapepsin occasionally keeps the stomach regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapepsin which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and sets things straight, so gently and easily that it is astonishing. Please don't go on and on with a weak, disordered stomach; it's so unnecessary.

BURY BISHOP GRAFTON

FOND DU LAC PRELATE IS LAID AWAY WITH ELABORATE CEREMONIES WITH 4 BISHOPS AT HAND

FOND DU LAC, Wis., Sept. 4.—The body of Bishop Charles Chapman Grafton of the Episcopal diocese of Fond du Lac was laid to rest in Rienzi cemetery yesterday, following the most elaborate funeral ceremonial ever witnessedd here. The bishop's body reposed in a bronze casket, attired in full pontifical robes, a chalice and paten clasped in one hand. The funeral sermon was delivered by the Rev. Father J. O. S. Huntington of the order of the Holy Cross of West Park, New York. Assisting in the services were Bishops Toll of Chicago, Webb of Milwaukee, McCormick of western Michigan, and Weller of Fond du Lac. The service was held at St. Paul's cathedral. The big auditorium was packed and hundreds were unable to crowd inside the building.

GAS CHECKS RESCUERS

PARIS, Sept. 4.—Foul air compelled the changing every few minutes of the shifts of rescuers, who were still trying today to reach a force of about forty miners entombed in the wrecked Clarence coal mine near Bruay. Frequent slate falls rendered the rescuers' progress slow and very dangerous. There was small hope that any of the entombed miners were alive.

AFTER BUTTER TRUST

FEDERAL AUTHORITIES PLAN TO DISSOLVE CHICAGO BUTTER AND EGG BOARD; VIOLATES SHERMAN ACT

CHICAGO, Sept. 4.—Dissolution of the Chicago butter and egg board, a corporation said by government officials to be operating in restraint of trade, inviolation of the Sherman anti-trust law, will be one of the first anti-trust cases taken up by United States Attorney Wilkerson at the September session of the federal grand jury to report here today. Wilkerson, it is said, will ask the prosecution of officials of the board under the criminal section of the anti-trust act. A civil suit for an injunction against the board is now pending before the master in chancery.

A civil suit similar to that filed against the Chicago board is pending against the Elgin board of trade, according to department of justice officials. Wilkerson and his aides allege that by fixing the price of butter and eggs for almost the entire middle west the two bodies are acting in violation of the law.

YOUNGSTER HAS CHAMPION DOWN

CHICAGO GOLF CLUB, WHEATON, Ill., Sept. 4.—By far the feature of the morning round in the match play of the national championship here today was the playing of C. G. Waldo, Jr., of Brooklyn Country club. At the completion young Waldo has accomplished what to followers of the game was regarded as impossible. He had the champion Hilton five down. Waldo played a careful consistent game and made few mistakes, while Hilton was away off on his drives. The gallery which followed the players did not have the effect of unnerving the easterner player.

MAPS ROADS FROM OCEAN TO OCEAN

A. L. Westgard Completes New York to Seattle Run to Determine Best Route

DELAYED BY A CLOUD-BURST

Car Found Good Roads Into North Dakota, but Checked at Yellowstone

The first complete road route between New York City and the Pacific northwest has just been completed by the arrival in Seattle of A. L. Westgard, official A. A. A. representative, who left the metropolis on July 11 for the purpose of chartering a complete transcontinental route via Buffalo, Chicago, Milwaukee, St. Paul, Minneapolis, Bismarck, N. D., Miles City, Billings, Livingston, Butte, Missoula, Mont., and Spokane, Wash. Between New York and North Dakota, the schedule laid out in advance was easily kept; but owing to a cloudburst and heavy rain there was a delay of over a week along the Yellowstone river in Montana, which made it impossible for the expedition to reach the Anaconda Good Roads convention. However, same of the stretches that were covered with difficulty have already been slated for improvement; and good roads interest has been aroused throughout Montana.

Has Complete Log

One excellent result of this trip, which appropriately was made with a Pathfinder car, will be a complete log with odometer distances, all landmarks and other necessary information through to Yellowstone National Park, and also to Glacier National park. The transcontinental route passes through Livingston, Montana, but upon his arrival there, Mr. Westgard went down to Gardiner, the northern entrance to the park, in order to get complete details. Similarly on arrival at Kalispel, he made a northward detour to Glacier National park, taking equally complete notes; and of course, this also makes a complete route, connecting Yellowstone and Glacier National parks.

Though the route lay over some rough country, good time was made through northern Idaho to Spokane, and from Spokane to Seattle, running through Snoqualmie Pass on the direct route. It is not expected, however, that travel generally will go through Snoqualmie Pass, except during midsummer, and a safer way is now being figured out, to connect from Spokane to the Columbia river and Portland, where one branch will be connected north to Tacoma, Seattle, and Vancouver, and another extended south toward San Francisco.

After a short rest at Seattle, the expedition started south to take complete directions and landmarks for a strip map over the "Pacific Highway," through Portland, Salem, Albany and Medford, Oregon; Yreka, Redding, Merrysville, Sacramento, and Stockton, Cal., to Oakland and San Francisco. While the "Pacific Highway" has been traveled by a number of cars up to this time, full data over the route has not been available.

Starts East

Upon arrival at San Francisco Mr. Westgard will start east on the second leg of his triple trans-continental tour; running through Reno, Ogden (or Salt Lake City) Laramie, and Cheyenne to Omaha, thence over the upper route through Iowa to Chicago. From Chicago he will retrace that part of the going trip as fas as Buffalo and Geneva, thence down through the lake region of central New York to Binghamton, the Catskill Mountains, and the Hudson river. It is expected that the trans-continental Pathfinder will be able to start west on the third leg of the triple-tour, about the third week in September.

Aside from compiling complete data for the guidance of a large number of tourists who will travel one or more of these routes, this expedition is notable for the good roads enthusiasm aroused in many quarters. For much of his route west of the Missouri river, pilots were supplied by A. A. A. clubs, good roads associations, board of trade and public spirited citizens, who have been interested in seeing the best route selected and brought out as the three new ones will be, on the line of the "Trail to Sunset," published by the A. A. A. in the fall of 1911.

MAN MYSTERIOUSLY KILLED ON TRAIN

CHILLICOTHE, Mo., Sept. 4.—Dead with a bullet wound in the heart, John Smith, 58, unmarried, of this city, was found in the toilet of a Milwaukee passenger train bound for Kansas City, at Ludlow, today. He was either murdered by friends of a man under arrest for theft, who warned Smith he would be killed if he testified against the suspect, or Smith killed himself to avoid this fancied fate. No weapon was found on the train.

FIND RENDEZVOUS

TARRYTOWN, N. Y., Sept. 4.—It was said today that the detectivts guarding the estate of John D. Rockefeller, and hunting Black Handers who have been threatening the oil king, found at least three of the gathering places of the alleged blackmailers. The guard, however, was doubled and the Great Danes, usually in leash, roamed the estate.

What Telephone Users Can Do to Help the Service

There are three parties to a telephone call — the person making the call, the Telephone Company and the person called. It is not sufficient that one, or two of the above parties do their work properly. The co-operation of all three is necessary.

Telephone Users May Help the Telephone Service —

By consulting the telephone directory before making calls, this obviating the many errors due to calling numbers from memory.

By speaking directly into the transmitter in a clear, distinct voice.

By separating the figures of the telephone number when making a call, for example—Main 3457, Main thr-ree fo-ur—fi-ve sev-en?" ending with the rising inflection.

By enunciating the other digits, oh, one, two, six, eight, and nine more quickly, but distinctly.

By calling repeated digits separately, for example—Main 122, "Main one—two two?" using however, "hundred" and "thousand" for repeated final ciphers.

By correcting the operator if she repeats the number called incorrectly.

By holding the telephone receiver to the ear until the called party answers or some report is given from the Central Office.

By being ready to talk when the called party answers. As a matter of courtesy, the person making the telephone call should not oblige the called party to wait his convenience.

By answering telephone calls promptly. If there is unusual delay in answering the telephone, the operator may report "Don't answer" to the party calling.

In telephone operating the human element must be considered. The public is human. Telephone operators are human. The hastily spoken word and its inflection convey whatever impression each gets of the other. Under such conditions, courtesy both on the part of the operating force and the public is like oil to machinery — necessary to prevent friction.

ANOTHER VESSEL GOES TO THE BOTTOM OF THE SEA; HELVETIA IN COLLISION WITH LINER SINKS 300 MILES BELOW QUEBEC

Last minutes of the "Helvetia".

In a heavy fog bank the Canadian Pacific liner, "Empress of Britain," recently collided with the collier "Helvetia" some three hundred miles below Quebec. The collier sank almost immediately after having been disengaged with difficulty from the liner's bows on which she had been held for almost thirty minutes. The accompanying photograph shows the "Helvetia" turning over before the final dip.

The liner, with the rescued crew of the lost vessel on board, limped into port with bows smashed and with a deep gash in her stem

CONVICTS WRECK PEN

PRISON FACTORY AND KITCHEN AT JACKSON, MICH., IS DEMOLISHED BY RIOTING PRISONERS

JACKSON, Mich., Sept. 4—Breaking out of the bull pen where they were confined because of the riots yesterday, fifty convicts at Jackson prison today destroyed hundreds of dollars worth of property in the prison factory and kitchen. The prisoners after escaping from the bull pen rushed to the factory and kitchen where they demolished furniture and machinery.

One prisoner was shot in the arm by a guard. The disturbance was finally quelled after Warden Simpson had enlisted the state militia. A detail of soldiers is now patrolling the prison grounds.

PROBES LIVING COST

PHILADELPHIA, Pa., Sept. 4.—Professor King of the University of Pennsylvania today completed an investigation of the high cost of living for the board of public works, showing the following three main causes:

1—Profits to the middleman.

2—Inadequate transportation facilities between producer and consumer.

3—Lack of plenary powers on the part of the state railroad commission to enforce traffic regulations.

He recommends three remedies as follows:

1—The development of a system of trolley freights between the city and agricultural districts within a radius of 40 miles.

2—Stringent regulation of existing markets, coupled with a development of municipal markets.

3—Development of the trolley freight terminals in each section of the city so that the produce may be shipped direct to the consumer, or to the retail municipal markets.

Cruel.

Wifey—I'm going out now, dear. Won't you be lonesome without me? Hubby—Oh, no; just set the parrot here before you go.

Husbandly Trait.

"When does your husband find time to do all his reading?" "Usually when I want to tell him something important."

The Power behind the dough

ESCH WINS OVER DAHL BY 2,000; FEW VOTERS OUT

(Continued from Page 1)

J. K. Johnson is McDonald's closest competitor with Kennedy only a few laps behind.

Russell B. Smith defeated Bert Vincent for clerk of circuit court on the republican ticket by a substantial margin, taking his greatest lead in the country districts. Several wards gave Vincent considerable strength but this was overcome in the final count.

On the state republican ticket Krumrey and Owen defeated their opponents in La Crosse county nearly two to one and the democrats paired Bolens with Karel and Moehlenpah with about the same final result as that between Karel and Schmitz.

With every county heard from except Sauk where the telegraph and telephone communications were cut off by a bad storm last night, the returns up to noon today indicate that John J. Esch was nominated over A. H. Dahl by a majority of 1,500 or more.

Vernon county where Dahl was expected to make his strongest stand gave him a majority of five or six hundred which is more than offset by the Esch majority in La Crosse county. Each got better than an even break in every other county in the district. The vote in Jackson county was very close and the five precincts yet to be heard from may turn the count to either candidate. Esch received a majority of between and two hundred in Juneau county and a majority of more than 600 in Clark county, twenty-seven precincts out of thirty-nine having reported. The twelve precincts yet to be heard from are expected to bring this majority up to more than 700.

Although the returns from Sauk county are meager because of wire trouble, reports up to noon today indicate that Esch carried Reedsburg, Baraboo, Sauk City, Prairie du Sac, Ablemans and North Freedom. The remainder of the country district has not been heard from.

Monroe county cast a heavy vote for Esch giving him a majority of 650 with ten precincts to hear from.

BEATS OFF REBELS

DOUGLAS, Ariz., Sept. 4. — Advices received today by officials of the Montezuma Copper company say that after a thirty hours' battle, the garrison at Nacozari aided by the seventy Americans there, succeeded in repulsing the invading rebels who withdrew to the northwest. Three of the defenders were wounded. The rebel losses are not known as they carried their dead and wounded with them.

DEPLORES U. S. SHIPPING

NEW LONDON, Conn., Sept. 4.—Governor Simeon Baldwin of Connecticut in his address of welcome to the delegates to the fifth annual convention of the Atlantic Deep Waterways association, which opened here today, spoke of the hustle on the Pacific coast in developing shipping interests and on the need for the same spirit on the Atlantic seaboard. He also deplored the lack of foreign trade under the American flag.

Demand Greater Than Supply.

Coquoito nuts (little cocoanuts) are found in abundance in Mexico, but the entire amount gathered is taken by the local soap factories, the managers of which are constantly complaining that they cannot procure sufficient raw material from this neighborhood for their needs. This condition is due to the lack of interest on the part of the natives and to some extent, no doubt, to the difficulty experienced in extracting the meat.

Worry Wasted.

"Much of our worry is useless. "Yes; it is. I once bought some stock in a rubber grove and worried two winters about frost before I ascertained that the trees hadn't been planted yet."

The Meanest Man.

"He's a mean cuss, isn't he?" "Mean? He's capable of going into a barber shop for a shave and then getting his hair cut, a shampoo, massage and hair treatment just to keep other people waiting."

Easy to Divine His Thoughts.

"Don't you feel sometimes like you'd like to be a bird?" said Miss Miami Brown, sentimentally. "I specs mebbe I wouldn't mind," replied Erastus Pinkley, "if I could be a chicken hawk."

GINK AND DINK :: :: :: By C. A. Voight

FOOD VALUE OF BUTTERMILK

According to Bulletin of Department of Agriculture It Is Extremely High.

An ordinary glass of buttermilk contains about as much nutriment as two ounces of bread, a good sized potato or a half pint of oysters, says a recent bulletin of the United States department of agriculture. It thus contains about the same food constituents as skim milk, but it has an added hygienic value because the protein is more easily digested than the protein in skim milk, and therefore is often prescribed by physicians for children and invalids, especially those suffering from intestinal trouble.

Protein, being the most costly of food ingredients, is the one most likely to be lacking in inexpensive meals, and this is the nutrient which both skim milk and buttermilk supply in a cheap and useful form, and when taken with bread or used in cooking they form a very nutritious addition to the diet. Two and one-half quarts of skim milk or buttermilk contains about the same amount of protein as one pound of round steak, and costs about one-quarter as much. Two quarts of milk has a greater nutrient value than one quart of oysters. The nutriment in the form of oysters would cost 30 to 50 cents, while the skim milk or buttermilk would have a value on the farm of from two to four cents.

Hardy's Story of His Grandfather.

Mr. Thomas Hardy attended a meeting of the Natural History society at Dorchester, at which Mr. Alfred Pope related a story communicated to him by the novelist. The story concerned Mr. Hardy's grandfather, and told how one night he outwitted two men who were bent on robbing him.

He sat down on a furze faggot, placed his hat (on which he had previously put a number of glow worms) on his knees, stuck two fern fronds on his head to represent horns, pulled from his pocket a letter he chanced to have with him, and began reading it by the light of the glow worms. In a few days there was a rumor in the neighborhood that the devil had been seen at midnight reading a list of his victims by glow worm light.—London Evening Standard.

Smallest Book in the World.

The smallest book in the world is in the library of congress, always under lock and key. It is a copy of the Rubaiyat of Omar Khayyam. The tiny volume was made by Nathan Dale of Cleveland, O. It was photographed, each page separately. Four books of the same size would just cover a postage stamp. Three hundred of them would weigh a pound.

Don't wait for things to come to you until you are too old to enjoy them.

Chicago Grain Review

CHICAGO, Sept. 4.—The local grain market was treated to a sensation today when frantic covering by traders on the short side of the market sent prices of September corn soaring. As soon as rumors of a crop shortage reached the pit, bears began a systematic buying campaign which at noon had driven quotations up a cent and a quarter over the opening figure.

There was a display of firmness in the wheat market, all grades holding steady. Slightly weaker Liverpool cables had little effect on prices.

Oats and provisions held firm.

Keeping Water Cold.

If you are in the habit of taking a pitcher of iced water to your room on retiring, try this: Procure a square pasteboard box (with lid), sufficiently large to hold your pitcher, and give it two or three coats of varnish on the outside, allowing each coat to dry thoroughly. Place your pitcher of water in this box on retiring, putting the lid on tightly, and you are sure of having cold drinking water any hour of the night.

His Best Friend.

Many great writers besides Cicero and Emerson have written on friendship, but it may be doubted whether any essayist had a more definite idea than a small boy who was recently asked what he meant by "best friend." "My best friend," he replied, "is a person who knows me and yet likes me."—Collier's.

Loss to Antiquarians.

One of the huge stones of the Avenbury Druidical circle, which is much larger and older than Stonehenge, has fallen, owing, doubtless, to the effects of weather—heavy rains following a dry season. Aubrey, who acted as guide to Charles II., on a visit to this district in 1663, declared that Avenbury as far surpassed Stonehenge as a cathedral does a parish church.—London Mail.

Cow Was Drunk, Not Wild.

A Virginia husbandman, alarmed by the indecorous performances of an ordinarily mild and gentle cow after munching a ration of ensilage, appealed to the sharps of the department of agriculture, thinking the cow had gone wild or mad. Investigation revealed that "bossy" had feasted on fermented cornstalks and had simply got drunk on the raw bourbon whisky.

WATCHING THE SCOREBOARD

The Giants found the delivery of the venerable Otto Hess as intricate as Bostons street car system and fell for the second time this season before the tail-ending Braves.

McGraw's enter Philadelphia today with a margin of five and a half games for a strenuous seven game session.

The Senators proposed an exchange of positions with the Athletics by winning and today stand just one point in the percentage column above them.

The Red Sox were to have appeared at Yankee park for their final game, but rain prevented and unless they return as champions New York will not see them perform again this season.

Fred Luderus, the Milwaukee German, played a big part in the lambasting given the Dodgers by a single, a double and a home run out of four times up. The humiliated Brooklynites immediately started home to battle with the Boston's today.

The Cubs split even in a doubleheader with Pittsburg gaining a half game on the Giants. Both teams left for the Windy city where they battle today.

If you are going to tell a man just what you think of him, pick out one who is smaller than you are.

Even Break of Cubs with Pirates Makes New York Lead 5 1-2 Games

NATIONAL LEAGUE
Boston 5; New York 1

BOSTON, Sept. 5.—The Braves beat the Giants yesterday, 5 to 1, and set them back to five and a half games ahead of the Cubs, the latter's even break at Pittsburg gaining them half a game. Crandall was yanked in favor of Ames after the third, but Hess had the Giants eating out of his hand the rest of the way. Score:

Chicago 5-0; Pittsburg 2-1

PITTSBURG, Sept. 4.—By splitting a double bill yesterday the Cubs gained half a lap on the Giants and left for home last night to play off a postponed game with the Pirates. Cheney trimmed the locals, 5 to 2, in the first section and Richie lost the second show, 1 to 0, in a fast and well played combat. Hendrix shut out the Cubs with three hits and Richie allowed but five safeties. Three of these and a stolen base in the second gave the Pirates their run. Scores:

CHICAGO BOXER TO MEET NELSON

Sparta Man and John Wille Will Clash in Armory Thursday, September 12

Art Nelson of Sparta and John Wille of Chicago are to be the principals in a ten round exhibition boxing contest which will be held at the Sparta armory on Thursday evening, September 12. This exhibition promises to be one of the best boxing contests ever seen in this vicinity for Nelson is well known here while Wille is a clever boxer who weighs 200 pounds, ten pounds more than his opponent.

Nelson has been in many boxing contests this spring and in all he has made a great showing as his work has been of the best. He is now training hard for the boxing contest next week but he is in need of some big sparring partners to put him in condition. He is working faithfully to be in the best of condition for the contest as a run of eight miles on the road in the morning and two hours' work in the gymnasium in the afternoon each day will testify. His friends are predicting great things for him and they expect him to rank high within a short time.

La Crosse fans will have an opportunity to see Nelson work as he will probably be seen training here with his trainer, Arthur Scheppke, next Monday and Tuesday evenings. This will give the local people a chance to get a line on Nelson's work and he will give some good heavyweights an opportunity to oppose him for a few rounds.

Nelson received an offer today from Promoter John McCue of the Racine Boxing club to box Young Mahoney there the latter part of September. Young Mahoney is a white hope and Nelson believes that he can trim him as easily as he did Frank Ryan and Jumbo Wells.

PITCHERS' BATTLE WON BY SUMMITS

Although they were held to one hit by Betzel, the Summits defeated Galesville at Galesville Sunday by the count of 1 to 0 in a game which was a pitchers' battle between the former league twirler and Balduzzi.

Betzel was in fine form and he completely baffled the Summits except in the eighth round when the only run of the game was scored. Betzel fanned sixteen batters.

Roeder started the eighth by getting a life on an error and he followed this by stealing second base. Bell was put in as a pinch hitter and he clouted out a fly to deep left field. The left fielder got under the ball but dropped it and Roeder scored the winning run.

Balduzzi also pitched a wonderful game holding Galesville to three bingles while but five balls were hit out of the infield. His teammates accorded him good support, Wiskerchen and Horn making double plays when Galesville threatened to score. The fielding of Horn, shortstop for the Summits who accepted eleven chances without an error, was the feature. With two out and men on second and third bases in the second round, Horn saved trouble by pinching a liner off his shoe tops.

Score by innings:

	R	H	E
Summits . ...000000010—	1	1	1
Galesville . ..000000000—	0	3	3

Batteries: Balduzzi and Nofke; Betzel and Kutcher.

Playground Notes

The following results show that West avenue wins the trophy in the Midget class with 146 1-6 points, Copeland coming second with 116-5-6 points.

In the Boys' class Copeland park is easily the winner having 255 1-3 points as against Hood street's 92-2-3.

In the Juniors the Copeland bunch also walks away with the trophy with a lead of 87 points over the nearest rival West avenue.

A closer race is seen in the Senior division Copeland winning over Hood street by 22 points.

The trophies which will be given to the captains of the winning teams at the Play Festival next Saturday by Mayor Dengler. They are now being exhibited at E. W. Parker's Jewelry store.

Seventy-two gold, silver and bronze medals will be awarded to the winers of events of the final interplayground meet at the play festival. Mayor J. Dengler will make the presentations.
